Preliminary program

Third Nordic Advanced Course for Obstetricians - 2014

Preliminary Program – Speakers and Tutors
Participants – Obstetricians (max 65)
Location: Ferring, Kay Fiskers Plads 11, 2300 Copenhagen S
Organizers: Rigshospitalet, Copenhagen

Thursday November 20th

12:00-12:45 Arrival, registration, sandwich and welcome
12:45-13:00 Wellcome by Ferring
13:00-14:00 INOSS & NOSS educational board
   (Kitty Bloemenkamp, Jens Langhoff-Roos and Anna-Maija Tapper)
   Severe maternal complications – presentations incl. cases by young researchers
14:00-14:15 Coffee
14:15-15:15 Severe maternal complications – presentations incl. cases by young researchers
15:15-15:30 Break
15:30-16:30 Cases (Lupus) in groups;
16:45-17:45 Lupus and severe preeclampsia/IUGR - prophylaxis, treatment and recurrence
   (Kate Bramham, Karen Schreiber)
19:00 Dinner

Friday November 21st

8:30- 9:00 Arrival
9:00-10:00 Cervical incompetence and cerclage
   (Niels Uldbjerg and Kirstine Sneider)
10:00-10:15 Coffee break
10:15-12:00 Fetal monitoring – physiology, interpretation, education, future development
   (Diogo Ayres-de-Campos, Lone Krebs, Line Thellesen, KG Rosen)
12:00-13:00 Lunch
13:00-14:00 Fetal programming – expands the obstetrician’s field of work.
   (Sjurdur Olsen)
14:00-14:15 Coffee break
14:15-15:00 Prevention and treatment of excessive bleeding. Balloons and balanced bloodtransfusion
   (Vedran Stefanovic, Hellen Edwards)
15:00-15:30 Final remarks, evaluation and closure
Severe maternal complications:

The presentations are based on planned, ongoing, or published studies.
The two sessions include nine short presentations including a case (a typical or a real case – to underline the message of the presentation). Max 10 min each and 5 min discussion.

Neonatal complications associated with severe maternal morbidity. Aura Pyykönen (Finland)
Peripartum hysterectomies in the Nordic countries. Maija Jacobsson (Finland)
Potentially avoidable hysterectomies in DK. Lotte Colmorn (Denmark)
Transfusion management in PPH. Dacia Henriquez. (The Netherlands)
Management of eclampsia: lessons to be learned from International comparisons. Timme Schaap (The Netherlands)

Uterine rupture in unscarred uterus. Griet Vandenberghe (Belgium)
Placenta percreta – the multidisciplinary challenge. Lene Grønbeck (Denmark)
Sudden hemoperitoneum in pregnancy. Janne Berlac (Denmark)
Audit in Maternal morbidity and mortality. Thomas van den Akker. (The Netherlands)

Fetal monitoring

Lone Krebs (10 min+5 min) will present her latest research on changes in the CTG pattern preceding uterine rupture. Which CTG changes should we look out for in a trial of labor after CS?
KG Rosen (20min + 10 min) has been a leading researcher for four decades within fetal monitoring. He has been persistent in a search for a tool that could predict fetal asphyxia. He will tell us about his findings and present the physiological considerations that he feels are important when we want to develop the optimal tool for the future.
Line Thellesen (10 min + 5 min) is a PhD student who will present the studies that already evaluated the effect of education in CTG interpretation, and present the current Danish study on “safe deliveries” with a focus on Fetal monitoring.
Diogo Ayres-del-Campos (20 min + 20 min) is an obstetrician and a researcher with a focus on improvement of intrapartum fetal surveillance based on more continuous monitoring, obsession with signal quality, simpler and more objective interpretation guidelines, and central monitoring with computer analysis and alerts. He will present and discuss the new FIGO consensus on CTG interpretation.
**Registration, fee and contact information**

Registration: E-mail name and the hospital where you work to [jlr@rh.dk](mailto:jlr@rh.dk), and then you will receive a confirmatory email. Registration will be ’first come, first serve’; a waiting list will be established.

Participation fee (meals included) – pay when you have received a confirmatory e-mail: 2000 DKK to:

Nordea Bank Danmark A/S, Store Erhvervskunder, Postboks 850, DK-0900 København C
Reg.: 2149, Account: 6269277503, SWIFT code: NDEADKKK, IBAN: DK28 2000 6269 277 503
**Reference: L-22090-00011 – Jens Langhoff-Roos**

Organizing committee from Rigshospitalet, University Hospital of Copenhagen:
Jens Langhoff-Roos and Line Thellesen.

The course is funded by Ferring Pharmaceuticals. They offer a location close to the Airport (Kay Fiskers Plads 11, 2300 København S) and provide lunch as well as coffee and tea. The participation fee covers transportation and accommodation of invited speakers as well as the dinner Thursday night.

If any questions please email Jens Langhoff-Roos at [jlr@rh.dk](mailto:jlr@rh.dk).
